

EUROPEAN AGRICULTURAL FUND FOR RURAL DEVELOPMENT

European Commission

The European agricultural fund for rural development (EAFRD) finances the EU's contribution to rural development programmes (RDPs).

The **Common agricultural policy funds (CAP)** provide the budget for two pillars. One pillar of the CAP is the European agricultural guarantee fund (EAGF) focusing on income support schemes and supporting the agricultural market. The **European agricultural fund for rural development (EAFRD)** represents the second pillar. It aims at promoting resource efficiency and supporting the shift toward a low-carbon and climate-resilient economy in the agriculture, food and forestry sectors.

National and regional Rural Development Programmes (RDPs) are financed by the EAFRD to finance measures and projects that contribute to the EU-wide objectives of:

- improving the competitiveness of agriculture
- sustainable management of natural resources & climate action
- balanced territorial development of rural economies and communities

Each national government appoints the Managing Authority which informs and supports potential beneficiaries, defines funding conditions, selects projects, and handles payments. The European Commission approves and monitors RDPs.

More general information on CAP, EAFRD and EAGF is available [here](#).
