€ € € 100.000 - 1M

\*\*\*Maximum € 150,000

**Consortia:** not required but allowed.

Medium  
effort

The funding programme aims to preserve and restore historic and rural landscapes, through the protection of cultural assets and the promotion of rural activities and initiatives linked to sustainable tourism and culture.

The Valorizzazione dell'Architettura e del Paesaggio rurale is offered by Cassa Depositi e Prestiti (CDP), the Italian Investment Bank. CDP covers the role of Italian Financial Institution for Development Cooperation and the National Institute of Promotion. Its main duty is to finance public works and, since the launch of the Italian Recovery and Resilience Plan, to support public authorities in its implementation.

The Valorizzazione dell'Architettura e del Paesaggio rurale offers funding rates of 80 % or in case the property is subject of a declaration of cultural interest 100 % for the following activities:

- Support for investments in climate resilience measures
- Conservative rehabilitation and functional recovery of typical elements of architecture and the rural landscape
- Maintenance of the rural landscape
- Preparation of spaces to be used for small social and environmental tourist services (accommodation excluded)

Applications have to be submitted via the regions portal linked on the CDP website.
