€ € 50.000 - 100.000

€ € € 100.000 - 1M

**25-85%**

**Co-financing  
rate**

**Consortia:** Not required

Medium  
effort

Bulgarian

Bulgaria

The Bulgarian **National Trust EcoFund** contributes to the implementation of the Bulgarian national policy in the field of environmental protection including the broadest possible range of potential environmental projects in the area of energy, transport, agriculture, forestry, water and waste management, industry and other national economy sectors.

The National Trust EcoFund (NTEF) aims for a reduction of greenhouse gas emissions and improving the quality of the environment focusing on:

- Improving energy efficiency of sites — public state or municipal property under the Investment Climate Program;
- Promoting the use of electric vehicles in the public sector.

The NTEF manages assets from the state budget and other sources like sale of greenhouse gas emissions quotas for aviation activities or funds provided by other environmental protection agreements.

Calls are opened through their official website on:

- Investment Program Mineral Waters
- Investment Climate Program - Energy efficiency
- Investment Climate Program - Electric vehicles
- Educational programs
