

# EU Adaptation Strategy

- Vision: *by 2050 the EU will be a climate-resilient society, fully adapted to the unavoidable impacts of climate change*
- Objectives:
  - **Smarter adaptation:** improving knowledge and managing uncertainty
  - **More systemic adaptation:** support policy development at all levels and sectors
  - **Faster adaptation:** speeding up adaptation across the board
  - **Stepping up international action** for climate resilience

# A strengthened role for adaptation

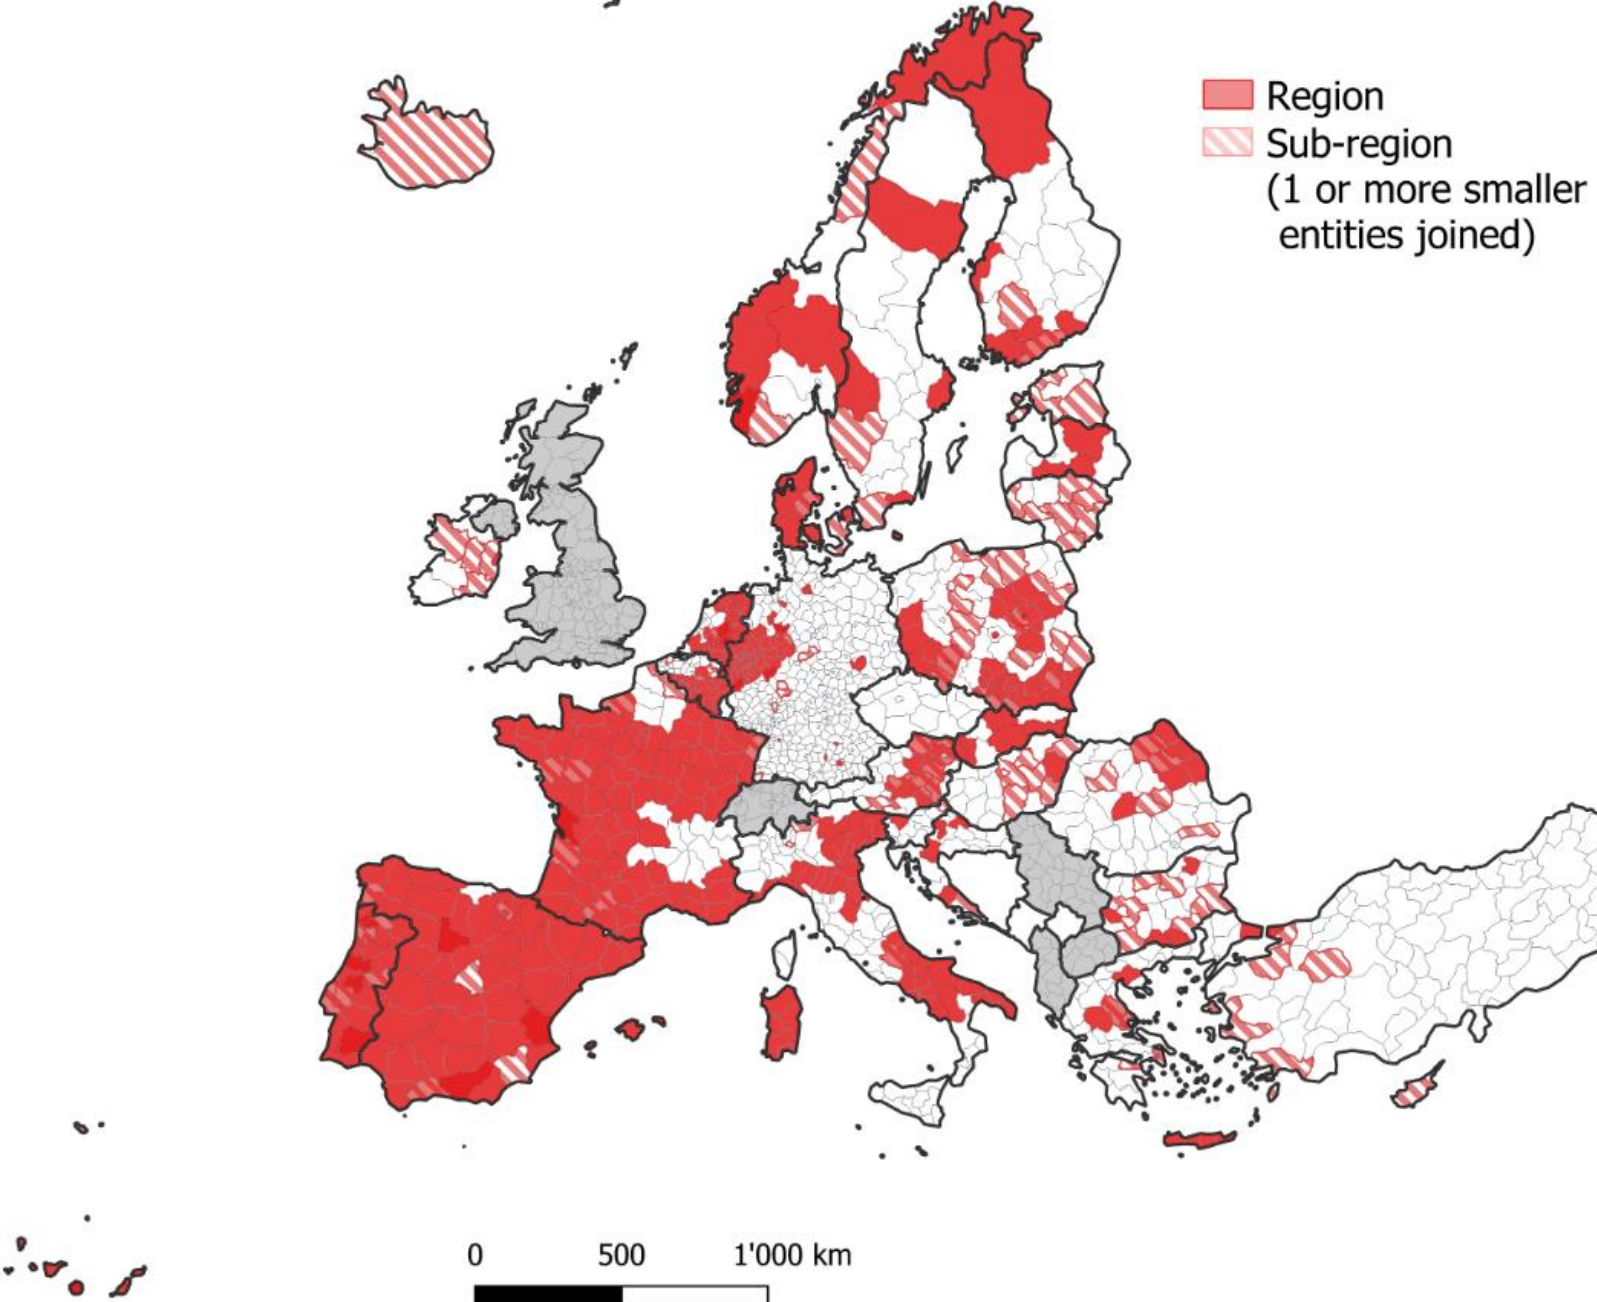

## Article on adaptation to climate change (Article 5)

- Union and Member States to ensure continuous **progress** on adaptation
- Legal framework for **new EU adaptation strategy** of February 2021
- Union institutions and Member States to ensure that adaptation policies are **coherent, mutually supportive and mainstreamed** into all policy areas
- Requirements on **Member States' adaptation strategies**
- Commission **guidelines for management of climate risks**, implemented through the climate proofing technical notice of 2021

# EU-wide climate risk assessment

- EUAS: ‘Commission will draw up an EU-wide climate risk assessment’
- IPCC AR6, Peseta-IV, EEA-reports, USA and MS climate risk assessments
- Draft outline: about 35 chapters (hazards, sectors, topics), peer-review
- Published as a climate science publication
- Will come out probably in Spring 2024

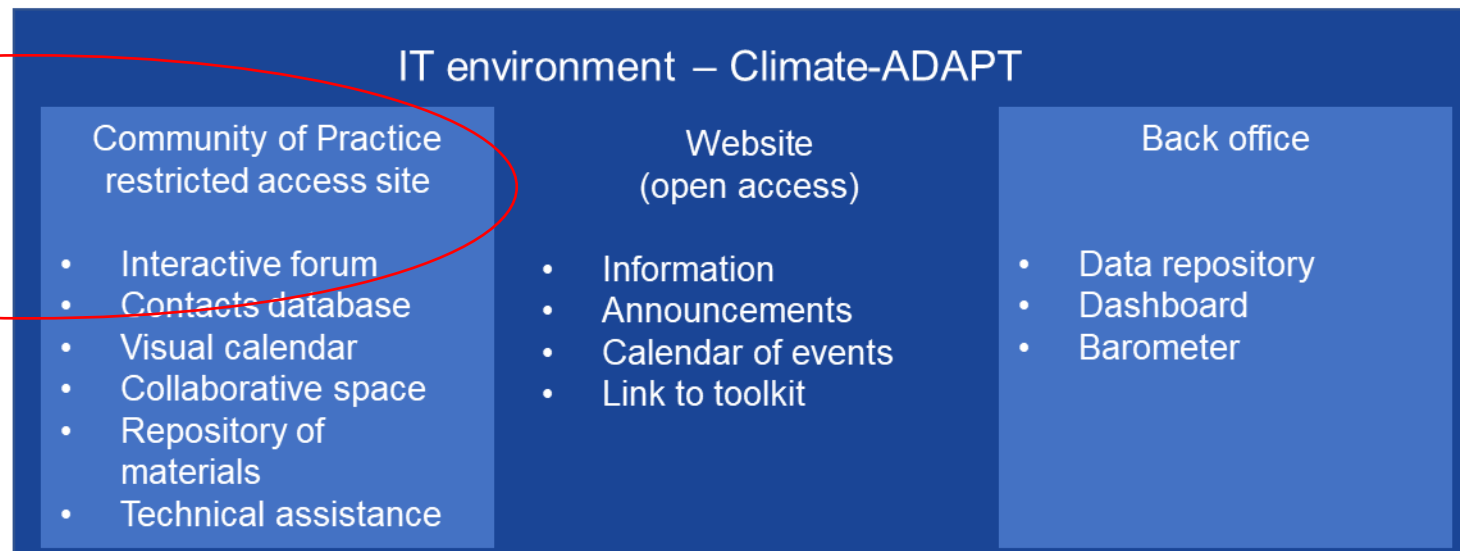

# Signatories of the Adaptation Mission Charter

# Building the Mission Implementation Platform

- Five facilities supported by an IT environment in Climate-ADAPT

**Goes live  
1 April**
