

The Mission Implementation Platform: offer to the regions and key milestones

Richard Smithers

- Project Director, Ricardo Energy & Environment

The Mission Implementation Platform #MIP4Adapt

- #MIP4Adapt reports to:
 - The Mission Secretariat
 - The Mission Manager (DG CLIMA) and Deputy Mission Manager (DG RTD)
 - The contracting authority, CINEA

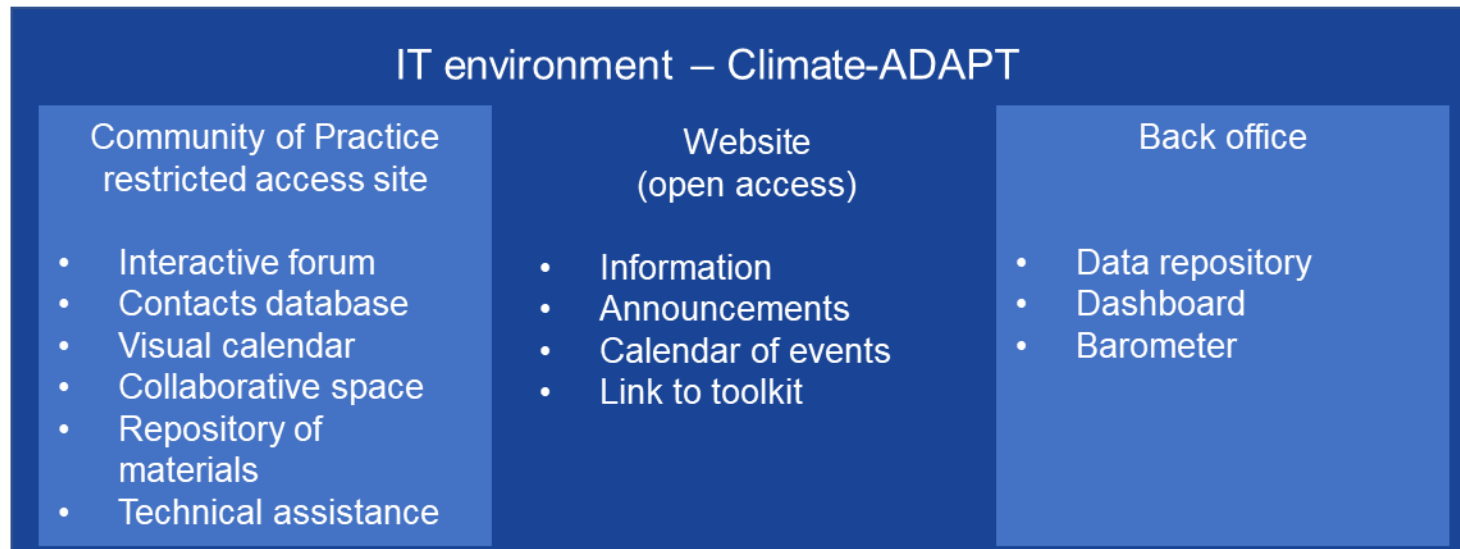

The objectives of MIP4Adapt are to:

- **Provide central support** to Mission participants and the Commission to implement the Mission
- **Coordinate the broad range of activities and actors** through a Community of Practice, including coordination with other European activities on climate adaptation
- **Provide support and technical assistance to regions and local authorities** along their transformation process towards climate resilience
- **Communicate and connect** activities and actors on adaptation, including through a media strategy and an annual Forum event
- **Monitor and report on progress**
- **Promote and stimulate broader engagement** with the Mission and other Missions.

Building #MIP4Adapt

- Five facilities supported by an IT environment in Climate-ADAPT

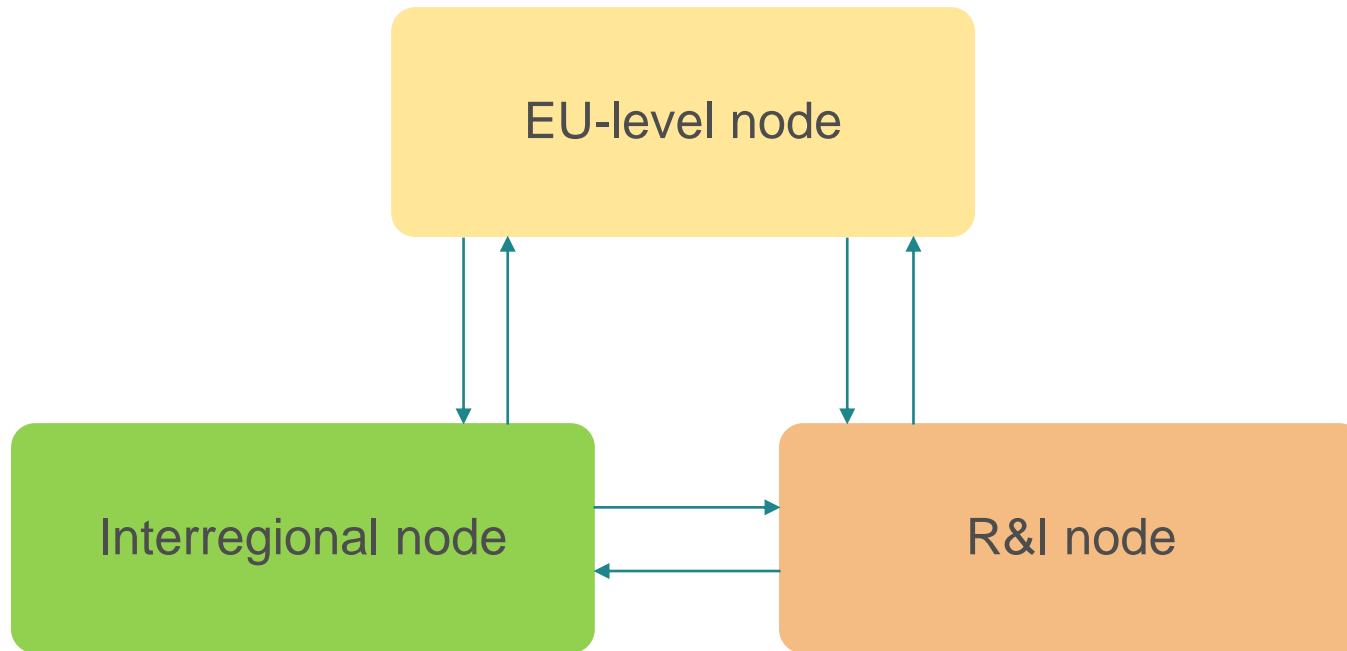

Community of practice

Members:

- Charter Signatories
- Mission Projects from the Mission's Horizon Europe calls and other relevant EU-funded project, including the regions involved
- Governmental National Contact Points for climate adaptation
- Member State authorities and institutions
- European institutions
- Friends of the Mission

How members of the Community can help each other

Strong dialogue between nodes

Members will benefit from:

- Engagement with stakeholders
- Sharing knowledge, experiences, and practices
- Participation in events
- Opportunities to link research with policy and practice

Benefits and support for charter signatories

Technical assistance

Tailored for **regional and local authorities** that are **Charter Signatories** or involved in **Mission Projects** to help them to:

- Use their climate vulnerability and risk assessments to **develop adaptation plans** and to **fund and implement climate adaptation** solutions
- Identity **demonstration projects** on climate adaptation and **access funding and financing for their implementation**
- **Engage and mobilise citizens and stakeholders**

Benefits for all regions

Access to Mission Website and communication materials including:

- Regional Adaptation Support Tool (RAST)
- Resources and data
- Guiding tool for citizen engagement
- Newsletter and publications
- Access to open trainings and webinars
