

# NECPlatform

**National Energy and  
Climate Platforms to  
deliver on the EU 2030  
targets**

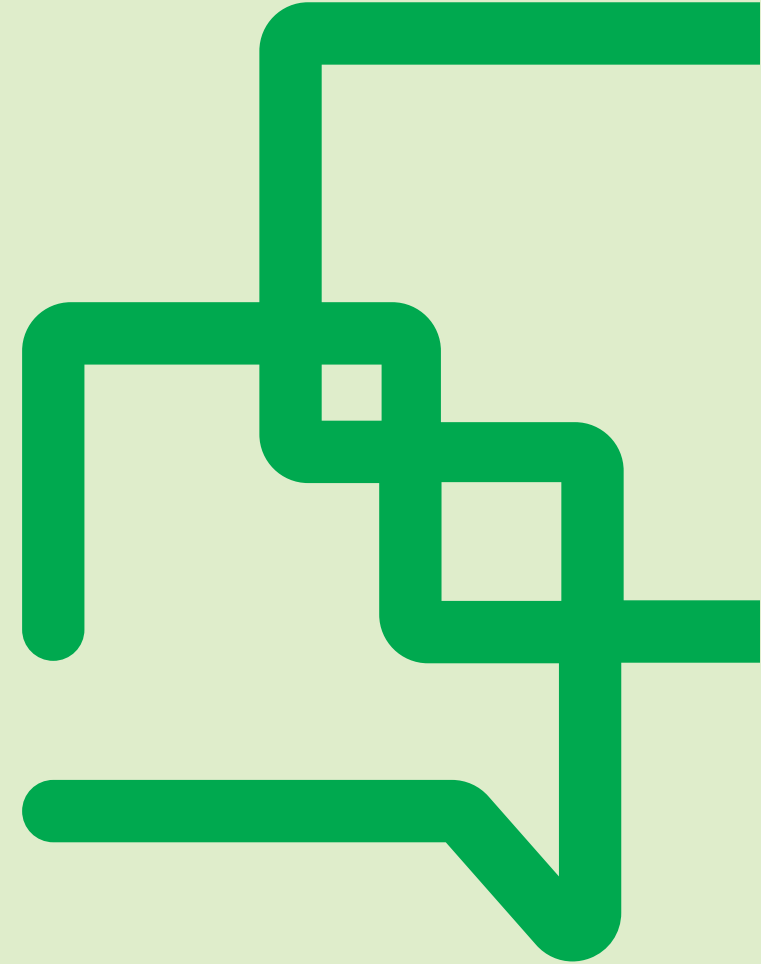

<https://energy-cities.eu/project/life-necplatform/>

# NECPlatform

## How and why the CED started?

[www.energy-cities.eu/project/life-necplatform/.eu](http://www.energy-cities.eu/project/life-necplatform/.eu)

# Guidance to Member States for updated NECPs 2021-2030

“Under Article of the Governance Regulation, MS must establish a **multilevel energy and climate dialogue**. They must provide a platform to discuss with stakeholders the different scenarios envisaged for energy and climate policies and achieving the EU’s climate neutrality objective set out in the Climate Law.”

**NECPlatform added as a good example MS should follow in the EU Commission guidelines.**

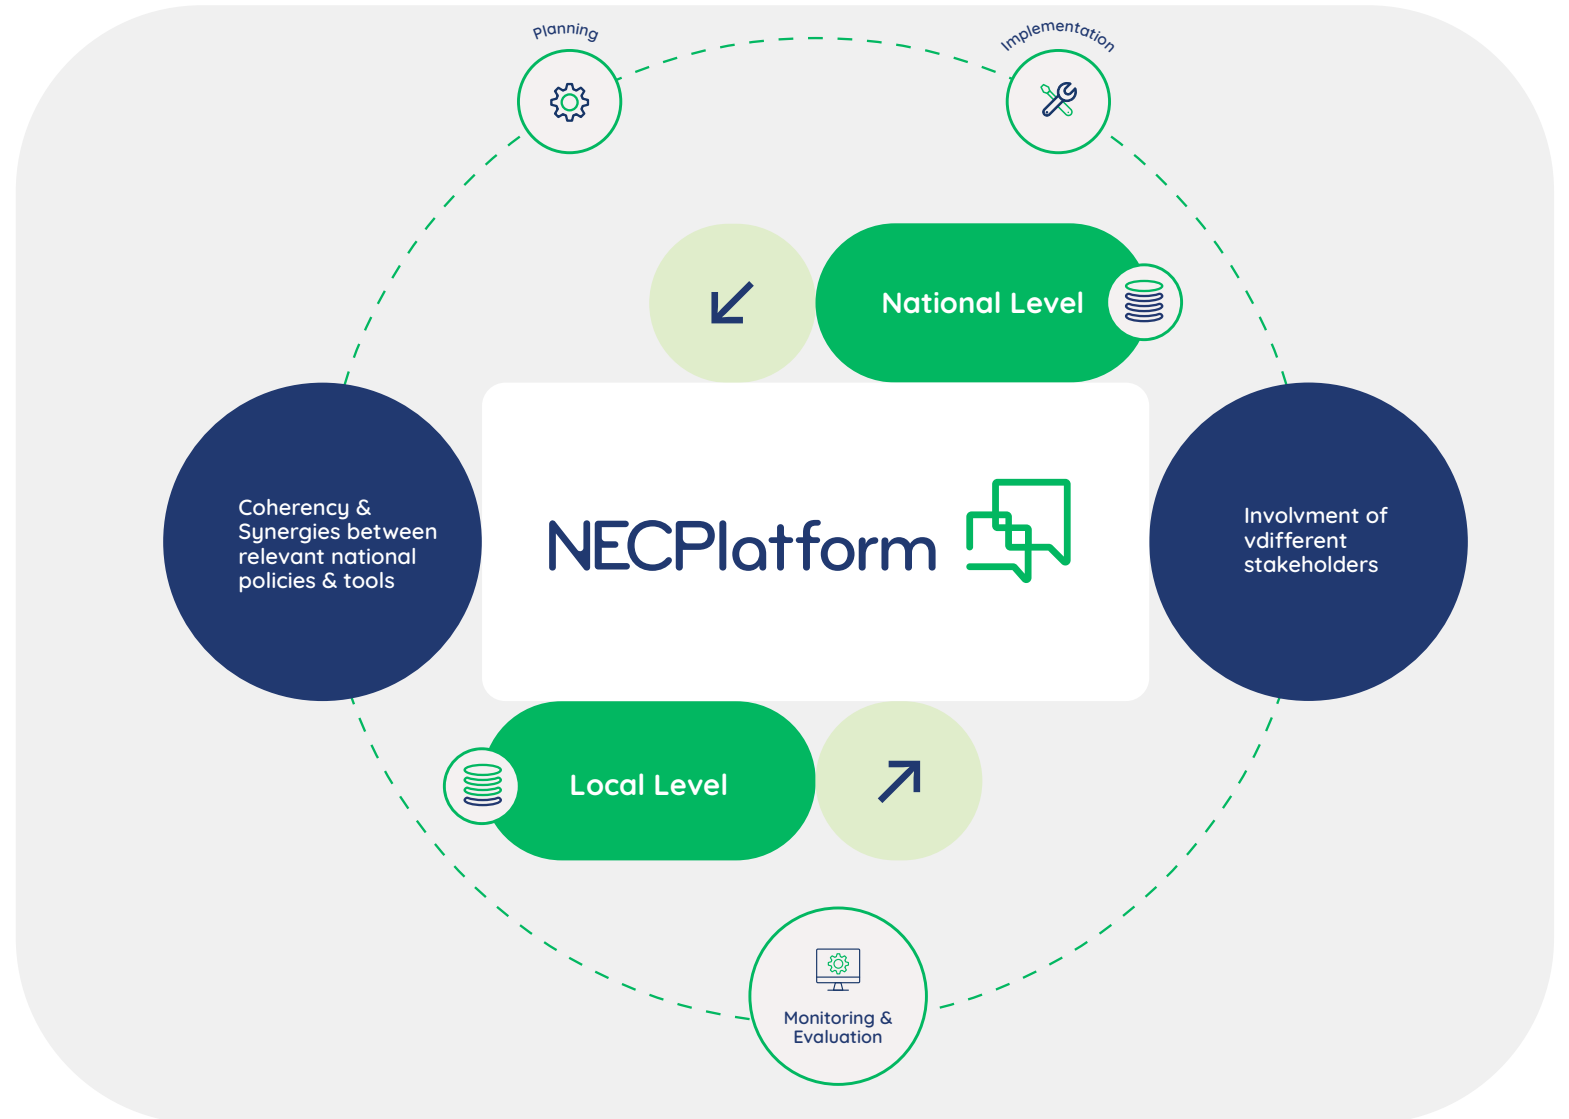

# What is NECPlatform project?

The NECPlatform will support **six EU MS** in setting up and managing permanent **multi-level Climate and Energy Dialogue (CED) Platforms**, as mandated by Article 11 of the Governance Regulation. These dialogues will help foster **vertical and horizontal integration** of energy and climate policies.

**30 months duration** (started in October 2022)

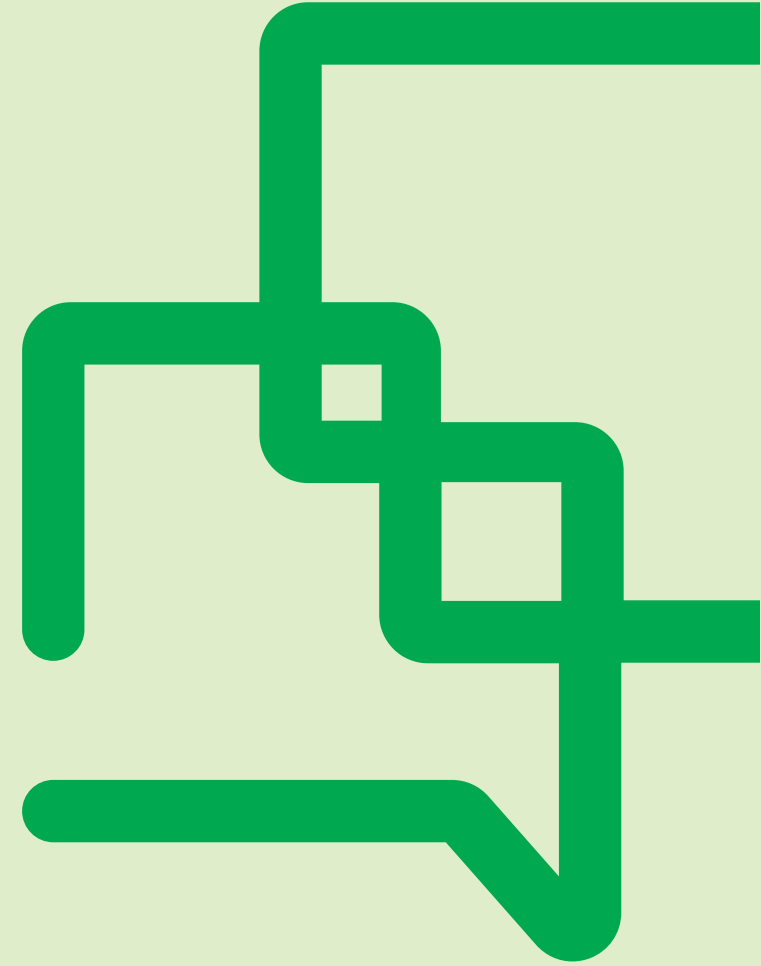

# Core institutional arrangement: Climate & Energy Dialogue Platform

# Implementation in Croatia

1. Strong support of the Ministry of Economy and Sustainable development
  2. Cooperation with the authors of the NECP – Energy Institute Hrvoje Požar
- Sense of ownership**
3. Focus on meaningful and relevant topics, open communication and flexibility in the organisation and implementation of the CEDs – **Key message: We are here to support you**
  4. Continuous communication and cooperation with key stakeholders within the process

## 1st CED

- Over 40 participants
- 9 national ministries present
- Local and regional governments, academia, NGOs, experts
- Overview of the NECP

## 3rd CED

- Over 45 participants
- Targets, ambitions and key measures
- Implementation and funding
- Next steps

Dialogues

## 2nd CED (virtual)

- Over 90 participants
- Focus on local and regional governments
- Role of and impact on municipalities, cities and counties

## 4rd CED

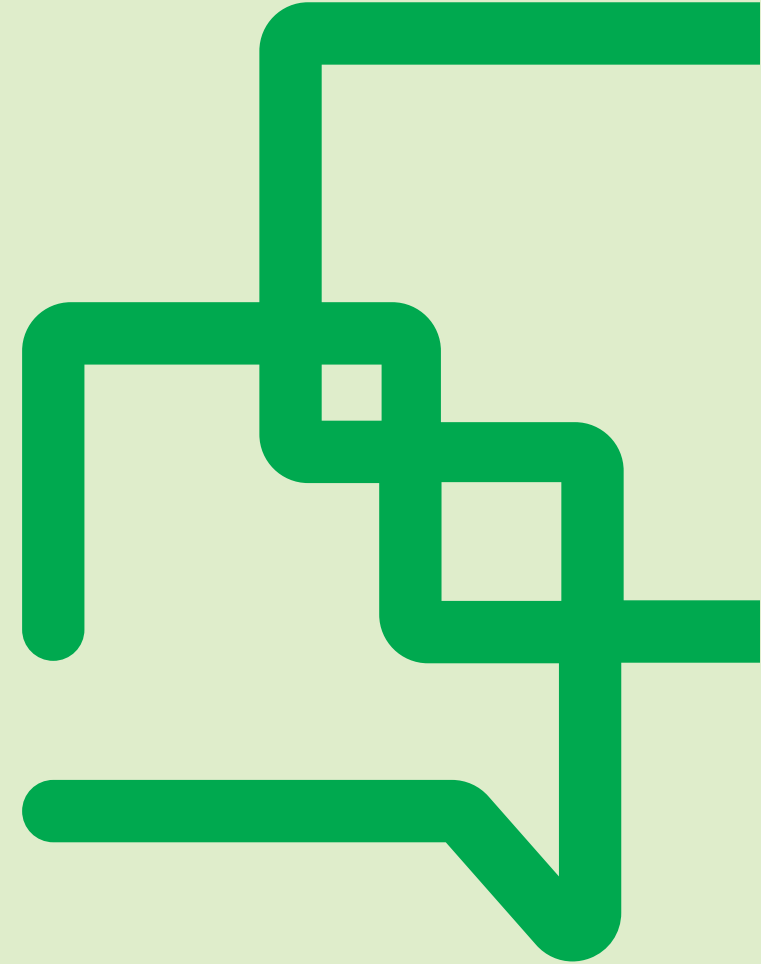

- Around 25 participants
- Funding and financing of planned measures
- Strong participation of the finance sector
- How to close the funding gap?

# NECPlatform

**Where will the CED be in  
the future?**

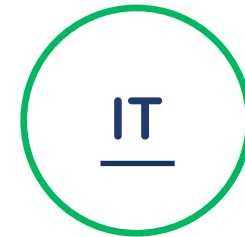

[www.energy-cities.eu/project/life-necplatform/.eu](http://www.energy-cities.eu/project/life-necplatform/.eu)

# Sustainability of the CED

1. Transformation into a self-sustained platform for climate and energy policies
2. Continued implementation beyond the NECP development
3. Exploitation of synergies with the Platform for Sustainable Finance at the Croatian Ministry of Finance
4. Implementation of sector-specific meetings, workshops and conferences co-hosted with key stakeholders to promote discussion around sustainable development
